Hi Kim-

Just wanted to let you know that the Preliminary Assessment for the Gunshy Manor site will be conducted by Ecology & Environment, Inc. (E&E), an authorized contractor for the U.S. Environmental Protection Agency. The E&E project manager is Jeff Feters. I've shared your message (below) with Jeff and copied him on this message so that he may contact you should the need arise.

Thank you.

-Monica Tonel

Hi - below is a link to the application material submitted to King County Dept. of Permitting & Environmental Review (DPER), for the proposed preliminary plat of Gunshy Manor. This is not all of the records or files associated with the parcel(s) - i.e. past grading permits, etc., only the prelim plat application, which is currently under review by DPER. Please let me know if you have additional questions. Thank you.
